

Pay Pool Analysis Tool Version 3.0
Summary of Enhancements
September 2008

Read new data elements and CWB wildcard data

- Read new DCPDS extract data elements passed on from the CWB
 - Organization Code
 - Occupational Category Code (Professional, Administrative, Technical, Clerical, Other, and Blue-collar (PATCOB))
 - UIC/PAS (Unit Identification Code for all but Air Force and Personnel Accounting Symbol for Air Force)
- Read the five wildcard columns from the Pay Pool Panel tab of the CWB

Provide capability to remove names

- Names and employee ID can be permanently hidden

Provide improved capability to hide rows

- Hiding rows on the Data tab also hides them on the Objectives tab
- Warnings are provided before rows are unhidden

Add capability to sort, rename, and delete imported pay pools

- The pay pools can be re-sorted to change the order in which they are displayed in the charts and tables
- The names of the pay pools can be changed for the displays
- Imported pay pools can be deleted

Allow user to select any wildcard column to use in wildcard displays

- Any of the five wildcard columns on the Data tab can be used to generate the wildcard displays

Provide salary marker chart to show position in pay band

- Up to two charts of employee position in pay band can be displayed
- User can select pay schedule, pay band, and limit the population using a wildcard
- Current pay or new pay can be plotted

Provide counts as well as percentages in tables

- Tables now provide counts of employees as well as percentages of the population being considered

Provide payout statistics by rating category

- Rating is now one of the categories on the Payout Statistics by Group tab
