DEFINITION OF TERMS

Beneficiary. The person (or persons) who, according to law or written designation by the Civilian, is entitled to receive certain benefits and or entitlements. A beneficiary may be one person for the death gratuity, while another person may receive the decedent's unpaid pay and allowances. The designation of beneficiaries for death gratuity and unpaid pay and allowances does not, for instance, affect the designation of beneficiaries of life insurance, either commercial or Government sponsored, or for benefits administered by agencies outside the Army.

Casualty. Any person who is lost to the organization by having been declared deceased, duty status-whereabouts unknown, EAWUN, injured or ill.

Casualty Assistance Center (CAC). The organization assigned the geographic area of responsibility in which the casualty, the next of kin, or the beneficiary resides. The CAC has casualty reporting responsibilities to the Human Resources Command.

Casualty Assistance Officer (CAO). The person responsible for providing assistance to those receiving benefits and/or entitlements upon the death, or entry into missing status of a civilian employee, or in Duty Status Whereabouts Unknown (DUSTWUN) cases. The CAO is also responsible for providing services to those NOK who have need for ongoing exchanges of information with the DA.

Casualty and Mortuary Affairs Operations Center (CMAOC). The Operations Center that executes the full-spectrum of Army Casualty and Mortuary Affairs. Serves as DOD Executive Agent for Mortuary Affairs and lead agent for the Defense Casualty Information Processing System (DCIPS).

Casualty Notification Officer (CNO). The person who notifies the next-of-kin of an individual who has been reported as a casualty.

Excused absence-whereabouts unknown (EAWUN). An administrative status, applicable only to Civilian personnel, that is used when the responsible commander suspects the employee may be a casualty, whose absence is involuntary, but does not feel sufficient evidence currently exists to make a determination of missing or deceased.

Emergency Contact. The person an employee designates to be notified in cases of emergency and/or casualty situations.

Next of Kin (NOK). For purposes of casualty notification and assistance, the person most closely related to the casualty. This is normally the spouse of married persons or the parents of single persons who have no children. The precedence of NOK with equal relationships to the member is governed by seniority (age). The rights of minor children shall be exercised by their parents or legal guardian.

Outside the Continental United States (OCONUS). Any geographic location not within the continental United States.

United States Army Human Resources Command (HRC). The Army command responsible for providing the full spectrum of human resources services to Soldiers, Veterans, Retirees and Army Families.

Wounded in Action (WIA). A casualty category applicable to a hostile casualty, other than the victim of a terrorist activity, who has incurred an injury due to an external agent or cause. The term encompasses all kinds of wounds and other injuries incurred in action, whether there is a piercing of the body, as in a penetration or perforated wound, or none, as in the contused wound. These latter include fractures, burns, blast concussions, all effects of biological and chemical warfare agents, and the effects of exposure to ionizing radiation or any other destructive weapon or agent. The hostile casualty's status may be categorized as seriously ill, very seriously ill, or not seriously ill/injured.
